JULY 10, 1916.—[PA]

SUBMARINE LINE NEXT, PREDICTS CAPT. KAIRIG.

Deutschland will Unload Cargo, then Attempt to Return Home.

(BY DIRECT WIRE—EXCLUSIVE DISPATCH.)

NORFOLK (Va.) July 9.—Defying naval a dozen enemy warships patrolling the Atlantic coast from New England to Cienfuegos and ending the combined North Sea fleet of France and England, the German submarine Deutschland, bringing a message from the German government to President Wilson, 1600 tons of dyestuffs and a quantity of mail, arrived at the Virginia Capes at 1:45 o'clock this morning.

She was under orders to proceed to Newport News but diverted her course to Baltimore after a conference with Capt. F. Hinrich, American representative of the U-boat expedition.

The Deutschland was met by Capt. Fred Cocke, of the Virginia Pilots Association, who was in a submarine to this port when she was met by the tug Timmins on board of which was Capt. Hinrich. Capt. Cocke had left the submarine and sometimes we were doing our best and then we would stop altogether. We changed the color of our vessel so that it would be hard to sight, even at a few miles.

"We ran close to the shore-line all Saturday and by night we were very much afraid of being detected at sea by being unfamiliar with the coast and because of the constant flashes of light from passing ships. Some were friendly and some might have been hostile."

Sometimes we were doing our best and then we would stop altogether. We changed the color of our vessel so that it would be hard to sight, even at a few miles.

"I consider our voyage uneventful. We had many little trouble. Once we had trouble with our search lights and air tanks, but they delayed us only a few hours. We were over 300 miles off the short course, which caused us behind the time we pointed out for arrival. We had to proceed to the coast according to Capt. Hinrich to arrive at Baltimore early tomorrow morning.

Capt. Kairig, commander of the submarine, according to Capt. Cocke, who was shown through the submarine, told him that the trip across the Atlantic was uneventful. The captain of the submarine said that he passed several British merchant ships and one British battleship. All had been advised by wireless to look out for submarine and to proceed to the coast according to Capt. Hinrich, immediately submerged. The Deutschland can submerge in one and a half minutes, according to Capt. Hinrich.

LITTLE TRIP IN LINER.

Capt. Cocke said that the crew of the submarine was in the best of spirits and stated that they felt as though they had made the voyage in an ocean liner.

The Deutschland is unarmed, according to Capt. Cocke. Her master and German representatives, who are on board, will remain until her status is that of an unarmed merchant ship.

Capt. Kairig stated that he anticipated no trouble in eluding the English cruisers expected off the Capes at any minute on the return voyage.

The plans of the master of the submarine are unknown at this time. He, however, is expected to leave for Germany within the next week or two. The Deutschland, he said, will probably be landed tomorrow, while the message to President Wilson and the mail are expected to be forwarded immediately to Washington.

When a strange looking craft with only 17 feet of her superstructure was seen above the water by the pilot boat Relieff, on Cape Henry about 2 o'clock this morning, Capt. Fred Cocke, who was on watch on the American submarine, saw the boat pass under his bow and did not pursue it by steam. The strange looking craft blew several blasts from an air whistle, a signal that she wished to comply with an American law and take on board a pilot.

Capt. Cocke shouted through his megaphone, "What craft is that?"

PILOT IS AMAZED.

"It's a German underwater liner Deutschland," voice cried from the deck of the submarine.

"The devil!" cried Capt. Cocke. "We'll alongside and see what it is."

The American pilot leaped into a yawl and was rowed to the strange craft, which lay not fifty yards away. He was literally pulled aboard the underwater liner by the diver's hands. The submarine flew no flag but her crew wore the uniform of merchant sailors.

She had hardly stopped her engines when the submarine from the Relieff with the tug Thomas F. Timmins, which had stood guard at Cape Henry twelve days ago, came to the submarine's rescue upon the scene.

It was then that the Deutschland ran up her colors and the tug ran up the international code "stand by."

Capt. Hinrich was so happy at the arrival of the submarine that he embraced Capt. Kairig on the deck of the underwater craft and grasped the hand of everybody on board from the lowest sailor to the highest officer.

ONLY THE BEGINNING.

"It is only the beginning," he said. "There are other submarines coming from Germany. This is the bigger and better than that. They will arrive at various American ports. They will come in and go out of New York, Boston, Philadelphia, other places. We will have a line of underwater vessels, just like Great Britain has her liners that sail from New York so often."

"How far away and from where we came will be a secret for a little while. Wait a little while. Wait for the others, they will accomplish everything."

"Capt. Kairig," he said, "you have done a remarkable thing. You have started the world and even had your name mentioned on board. You have been remembered for your daring. But you have brought your craft safely to port through a forest of minefields and through the jaws of the enemy. You did not lose your ship and the news of your remarkablefeat will put you among the big men of the world."

To Capt. Cocke, Capt. Hinrich said: "We have known this craft was coming for many months. We have been waiting for her for several days. We had word from her on several occasions and had never feared that she was lost. We knew she would show up soon."

Capt. Hinrich delivered to Capt. Kairig several sealed envelopes. He informed Capt. Cocke that the submarine was to go to Baltimore, but was not to go to the Monument City until Monday morning.

TO ANCHOR IN BAY.

Epochal.

Starts Controversy.

(Continued from First Page.)

is unarmed, which already has been received, both by the Treasury and State departments, there will be nothing for the government than to give her the same treatment as British, French, Italian, Russian and Japanese manufacturers have enjoyed. She will be granted clearance and permitted to leave whenever she desires in order that nothing may happen to her. The War Department will assign a man-of-war, probably a torpedo boat, to maintain a watch. An armed guard also will be provided.

The arrival of the U boat marks a development in traffic and travel which began a new era in history. The world was surprised when the German submarine Deutschland, bringing a message from the German government to President Wilson, 1600 tons of dyestuffs and a quantity of mail, arrived at the Virginia Capes at 1:45 o'clock this morning.

She was under orders to proceed to Newport News but diverted her course to Baltimore after a conference with Capt. F. Hinrich, American representative of the U-boat expedition.

GRAFT CASES TO JURY SOON.
Chicago Conspiracy Trial is Brought to Close.

State Confident of Verdict Against Defendants.

List of Accused Unionists Cited to Seventeen.

BY DIRECT WIRE—EXCLUSIVE DISPATCH.
CHICAGO BUREAU OF THE TIMES, July 9.—The case of union leaders on trial for conspiracy before Judge Kickham Scammon in the criminal court will go to the jury Tuesday night or Wednesday.

Judge Scammon has selected the date of the defense and the date for arguments. Assistant States Attorney Marvin E. Barnes will begin the State's case tomorrow morning.

Both Mr. Barnes and Assistant State's Attorney Edward J. Baker are confident the jury will give a verdict for the State. They have all day today been planning the defense.

The list of twenty-one defendants originally placed on trial has been narrowed to seventeen. The accused men are: John White, Frank C. Coughlin, Peter J. O'Farrell, Frederick A. Schreiber, James G. McGuire, Charles W. Hanson, business owner of the Painters' District Council; William E. Nestor and Harry Glasser, former business agents; Harry L. Nichols and Walter E. Nichols, agents of the Glaziers' Union; James C. Stewart, business agent of the Printers' Union; William F. Coughlin, Fred Maden, and Charles Crowley, members of the Plumbers' Union; Jack Cleary, Tom Kelly, and John H. Murphy, former business agents of the Electrical Workers.

A previous session will mark the opening of the twelfth week of the trial. Eight weeks were spent in picking a jury. The hearing of evidence has taken place in a year since the trial began, during which Justice Scammon has held court daily from 9 o'clock until 6:30. Whatever the verdict of the jury, the trial will mark the end of the State's attempt to prove that the leaders which resulted in the suspension of their activities. There are still more than twenty defendants pending against five defendants. Every one of them will be tried.

CONSTABLE HOLDS PICKETS AT BAY.

BY ATLANTIC CABLE AND A. P.
PORTLAND (Or.) July 9.—A constable on duty at a wharf where the steamer Beaver was being loaded by nonunion men yesterday drew a pistol and held a crowd of men at gunpoint, trying to seize him. Three patrollers came to his rescue and the crowd dispersed.

It was announced that the steamer Beaver will depart next Tuesday for San Francisco instead of Friday, owing to delays in getting a go ahead.

REFUGEES TO NEW ORLEANS.

BY A. F. NIGHT WIRE.
NEW YORK (N.Y.) July 9.—More than 100 of the 655 refugees from Cuba aboard the transport ship now docked at Port Tampa yesterday were landed at New Orleans Monday.

WHEN WAFFED OUT.

BY A. F. NIGHT WIRE.
NEW YORK (N.Y.) July 9.—More than 100 of the 655 refugees from Cuba aboard the transport ship now docked at Port Tampa yesterday were landed at New Orleans Monday.

TRIUMPH.

BY ATLANTIC CABLE AND A. P.
LONDON, July 9, 5:27 a.m.—Boscombe forces continue to hold the enemy along the Sty and the Stokhod, north of Kovel, and captured three prisoners. Afterward some troops, pressing on the enemy's heels, crossed the Stokhod in the region of the village of Uglj.

According to an approximate estimate during the fighting from July 5 to July 7, between the Sty and the Stokhod, we took prisoner at least 200 Germans, including two regimental commanders, and about 12,000 unbound men. We also took less than forty-five guns of large and small caliber, about forty machine guns, large quantity of projectiles, cartridges, and arms and stores of food and forage.

"On the front of Gen. Evert desperate fighting has broken out at the Stokhod, and our cavalry charged the enemy's positions in the region of the village of Rouda, situated east of Baranovichi. The actions were marked with unusual ferocity. The enemy made fierce counter-attacks. The situation generally is unchanged. In other sectors there is nothing to report."

AVVS ARE MASTERS OF ENTIRE TRIANGLE.

BY ATLANTIC CABLE AND A. P.
LONDON, July 9.—A Reuter dispatch from Petrograd says that the Russians are masters of the triangle comprising Rafałowa, Baranovichi and Kolkı. The advance of enemy positions northward and southward of the Earmy highway permitted the cavalry to strike the center, resulting in the capture of the station at Manevitchi, half way between the Sty and the Stokhod.

"There is particular satisfaction over the capture of Gruzinian, west of Baranovichi, and the areas of sanguinary fighting. It is stated that Austro-Germans amounting to five corps (200,000 men) have been beaten in defense of the approaches to Kovel. The Austrians have been strengthened by German reinforcements between Kovel and Rafałowa."

Indors.

RATLEDGE'S STAND COMMENDED IN OREGON.

BY DIRECT WIRE—EXCLUSIVE DISPATCH.
PORTLAND (Or.) July 9.—The State Board of Medical Examiners for a license to practice medicine. He will continue to serve his term, which will last ninety days.

The position taken toward the chiropractors on the germ theory was established by Dr. Paul H. May of Oregon, who read a paper on "Epilepsy."

"The All-wise Creator," he said, "has placed the germ or bacteria in the spine, causing the disease." The position drawn up was for the Oregon Chiropractic Association to take a stand indicating its opposition toward the prosecution of Dr. Ratledge, a chiropractor, in jail sentence in Los Angeles.

The Times Free Information Bureau

619 South Spring Street

THE TIMES FREE INFORMATION AND REPORT BUREAU is for the accommodation and benefit of persons seeking interesting routes of travel, desirable hotels and general information concerning the scenes of the most popular excursions. Particulars are furnished by prominent organizations and correspondents to the press public regarding rates and attractions of railroad and steamship lines, hotel and pleasure resorts, and other points of interest. Circulars, maps, brochures and literature are kept on hand for inspection and distribution. Times readers can obtain news and information without the delay incident to writing for it, all the information necessary for a safe and enjoyable vacation being at their disposal. Literature may also be obtained at the New Times Building, Broadway at First street. PERSONS WISHING TO SEND MAIL TO THE BUREAU, ADDRESS IT TO: THE NEW TIMES BUILDING, BROADWAY AT FIRST STREET. PERSONS WISHING TO SEND MAIL TO THE BUREAU, ADDRESS IT TO: THE NEW TIMES BUILDING, BROADWAY AT FIRST STREET. PERSONS WISHING TO SEND MAIL TO THE BUREAU, ADDRESS IT TO: THE NEW TIMES BUILDING, BROADWAY AT FIRST STREET.

ENDEAVORERS END SESSION.

Slope.
**Annual State Convention
Most Successful.**

**Fine Record of Growth and
Usefulness Shown.**

**Five Thousand Dollars
Pledged for Work.**

BY DIRECT WIRE—EXCLUSIVE DISPATCH!
STOCKTON, July 9.—Christian Endeavorers of California, 3,000 strong, adjourned their twenty-ninth annual convention here tonight, following the installation of newly-elected officers. Leaders pronounced it one of the most successful conventions held thus far and predicted that the important giving and planning work would be set in every corner.

Howard L. Brown of Los Angeles declared that, at the next meeting of the organization, he would endeavor to be 100 per cent efficient.

He also said that the future of California Endeavorers was a matter of growth and increasing usefulness.

Each year, records were made up, recorded and presented to the greater religious expansion preceding.

The call to Christ was the keynote.

Peter the apostle, said the speaker went back to his old habit of writing, "I have led a miserable life, losing all my goods, and submitting to four years of poverty."

In return home the athletes turned from Christ, continuing,

"Kingsley, 'and his next step down was to get in with the wrong crowd. Just as soon as he had done that he swore off."

DEFINES 'HYPOCRITE.'

A hypocrite, according to Dr. Brown, is not the impulsive Christian who occasionally errs, but the man who sagaciously tries to profit from his mistakes.

"Men will tell you," he said, "that hell is a mythological creation, but it is a fact. Moreover, am sure there are two kinds of hell—the future and the other in the present. The backsliders or persons have abandoned the better life, suffering the tortures of hell."

But no living person is already, the speaker went on, fit to go to heaven. That is, he could have the hope of eternal life.

Convention services were conducted in the church, including a service for the sick.

Field Secretary Paul Davis spoke at the First Congregational Church on the subject, then said:

"Taking the wide range of man's history there has been no power greater than that of the church, and the Christian faith has changed weak men to strong crows to valiant champions, is a courage inspired by clear vision, and a love of justice learned by comradeship."

COURAGE PRESENT NEED.

"There never was a time when courage was more needed than now. For we must always try and help others, and warp you, if it can."

The feature of the convention was the report of Charlie Foy, State vice-president and manager of the superintendents' campaign.

Progressive achievements in the work set for us follow:

New societies, 375; new members, 12,000; new converts, 1,000; with the church, 550;

new members, 6,852; new quiet lodges, 4,655; new temples, 1214; new C. E. M. lodges, building fund, \$279,591; headquar-

ters in many instances exceeded expectations but efforts

were redoubled for the remainder of the campaign.

**HANGMAN CHEATED
BY HEART DISEASE.**

BY A. P. NIGHT WIRE!

SAN QUENTIN, July 9.—Charles Kohler, under sentence of death for the murder in 1915 of J. H. Kline in Salinas, Cal., died yesterday in the hospital San Quentin near the city of San Francisco.

Kohler was originally sentenced January 14, 1915, to die, but an appeal, which stayed the execution, was still pending at his death.

Kohler killed Kline, a shopkeeper, with a piece of gas pipe, then told of his act to police, who were 57 years old and dying. He was known to have relatives, but was buried in the prison cemetery.

**EX-INSURANCE MAN
ESCAPES FROM JAIL.**

BY A. P. NIGHT WIRE!

OLYMPIA (Wash.), July 8.—Making a spectacular eleven-hour rally the insurance agent got out of jail on the last lap of the thirty-mile march, but unable to return to his home, he was forced to seek refuge in the County Jail last night.

The Terrible Swede, as he was known, was captured and returned to the county jail, but he escaped through the bars. Hence he was sent to the Clark of Portland, by a score of 2 down and 1 to go.

BOY WINS POTLATCH TOURNEY.

SEATTLE (Wash.), July 8.—Making a spectacular eleven-hour rally the insurance agent got out of jail on the last lap of the thirty-mile march, but unable to return to his home, he was forced to seek refuge in the County Jail last night.

The Terrible Swede, as he was known, was captured and returned to the county jail, but he escaped through the bars. Hence he was sent to the Clark of Portland, by a score of 2 down and 1 to go.

**THE CITY
AND ENVIRONS.**
EVENTS BRIEFLY TOLD

Illinoians to Meet.
The Illinois Society will hold its regular monthly meeting in the Tivoli Assembly Hall, Wednesday evening. An interesting programme is promised.

"Vigorous Yours" Warmian will deliver his lecture, "How to Live 100 Years, and Then Some," in Grant Hall, 11th and Spring Streets, at 3 o'clock yesterday afternoon.

On Unemployment.
Supt. Donohoe of the Joint State City and Federal Employment Bureau and representatives of the Friday Morning Club and other clubs will have a conference with Superior Judge Wood, tomorrow morning, on the unemployment problem.

To Open Summer School.
The Thirty-ninth Street summer school will open today with classes in the following subjects: stenography, typewriting, bookkeeping, all academic subjects,loyd, cooking, dress-making, primary manual arts, pottery, library, weaving, folk games, tennis, athletics, etc. The sessions will be from 8 o'clock to 13.

Ad Men to Meet.
The weekly meeting of the Advertising Club of Los Angeles will be held at the Hotel Clarendon today. President Harold Janss will preside. The speakers will be G. Herb Faust, "Putting over Los Angeles," F. E. H. Fife, "The Butterworth," "Bridgeman of the Convention;" and Harry S. Carroll, "Re-organization of the Retail Department." Title stars, musical comedy star, and Grace Hale, Adams, concert cornetist, are also on the programme.

From the Orient.
**CHINESE TEACHER
SENDS MESSAGE.**

**EDUCATED HERE; NOW HEAD
OF WOMAN'S COLLEGE.**
Describes Home - coming Welcome by Family, the Killing of Fatted Geese for the "Chinese Prodigy," and Says She is Sometimes Homesick for Los Angeles.

Miss Fing Lin Liu, who was educated in Los Angeles and is now head of the Woman's College of Canton, China, has written an interesting letter to Dr. Hector Alliot of the Southwest Museum, describing her return to China. Miss Liu was the recipient of much attention on her departure to Canton a few months ago.

Dr. Alliot, believing that her education and service will be read with pleasure by her friends in Southern California and those who are awaiting the regeneration of China, is planning to have her letter printed in pamphlet form.

Telling of her family reunion, Miss Liu says: "After two years and a half it is a long time to be away from home. Yet it is not without compensation. For the longer one has been away the more welcome the return becomes. Preparations for the homecoming were made long before I was expected. As long as four months before my arrival mother bought six new dresses just for me. When I came home there might be fatigues to be killed. A new mattress was made to order so that 'American' comfort might be able to rest comfortably."

"Aside from my family the group of people that attracted me most and whom I miss constantly now are the twelve girls that are to be the nucleus of our Bible school class this fall. For two years and a half they have labored from Mrs. Liu's primary school, the wives of the American teachers and the Chinese teachers have been giving them a little instruction on the side. They are the brightest group of girls one can find—where—full of fun and mischief. They play volleyball, plant gardens and have parties just like the American girls do."

"They are very eager to learn everything. One of their greatest disappointments is that they have no opportunity to continue to learn to play on the piano. Some of the American ladies have been giving them a little instruction on the piano. But there are no rooms for them to practice on that has not been found feasible. Good music is very much needed in Chinese schools."

homes and society in general. I hope to have a trained music teacher and musical instruments so that the girls may have an opportunity to learn.

It has been a real disappointment to me to find China almost as undeveloped as when I left her. Schools have been increased in number, but they have not trained teachers nor are they well organized. Industries have not been largely organized and poverty stares at one's face everywhere. Old corrupt officials are still in power, and the reformers are in hiding. How fortunate I am to be connected with the Canton Christian College, which is a bright light in this dark province. It is keeping men by the score.

"As I am enjoying the work at the college my heart turns with great gratitude to the far away and unselfish workers of this work both here and in America. As I am struggling in the endeavor to build solid foundations for the future, my colleagues have been doing their courage increases. And sometimes when I am a little disheartened I think of the many dear old friends and interest of such friends as those of Vassar, Summit, Jersey City, New York, Kansas City, Los Angeles, Pasadena, and other places, cheer me up and I am ready to fight hard again.

Ruin.

STRIP BUS DRIVER.

Three Bandits Hold Him up and Take Away His Money and Machine; Has No Way to Make Living Since Driver, His Plaintiff.

DR. ALIOT, believing that he can do good and serve his service will be read with pleasure by his friends in Southern California and those who are awaiting the regeneration of China, is planning to have her letter printed in pamphlet form.

Telling of her family reunion, Miss Liu says: "After two years and a half it is a long time to be away from home. Yet it is not without compensation. For the longer one has been away the more welcome the return becomes. Preparations for the homecoming were made long before I was expected. As long as four months before my arrival mother bought six new dresses just for me. When I came home there might be fatigues to be killed. PLAN MEDICAL FOUNDATION.

Osteopathic Fraternity Back of Big Project.

Original Research will be the Main Object of Work.

Will Erect Building Soon to House Institution.

Detailed plans for the establishment of a great medical foundation in Los Angeles, to be patterned partly after the Rockefeller Foundation and partly after the Life Extension Institute of New York, of which former President Taft is the head, were made public yesterday.

This foundation is fathered by a number of the prominent members of the osteopathic profession in Western America and will have for its object the prevention of disease and advancement of the science of preventative medicine. The name has not been definitely decided upon, but it will probably be known as the Merrill Foundation and will consist of a large sum planned specifically for the work and to be erected within the year.

The physicians who have been most prominent in working out the establishment of the foundation are Dr. E. S. Merrill, Dr. W. V. Goodfellow and Dr. W. Curtis Brigham. They have for three years past been organizing the plan until it has been practically completed. Although no great endowment has been made to the work, it has been substantially guaranteed by a number of philanthropically-inclined Los Angeles citizens.

SEKES INFORMATION.

Mr. Merrill, who is at the head of the work, will leave in a few days for the East for the purpose of securing additional funds. The large eastern institutions, after which the local one is to be named, in part. In addition, he will communicate with his colleagues research work first at the Boston Psychopathic Hospital, which is operated in connection with Harvard University, and at the Mayo Clinic and the Veterans' Hospital for Mental Defectives, the first of these in the Massachusetts towns of that name, the other in the New Jersey community of Vineland. His special line of work will have to do with mental research studies.

Dr. W. V. Goodfellow, who is widely known as a specialist in surgery on the nose, throat and ear, and who has been conducting one of the largest clinics along this line in California, is at present in the East, doing research work. Dr. Edward F. Druman W. Brophy, one of the most noted oral surgeons in the world. The latter has been employed by the army to visit Paris during the first part of the year to study the clinic before 150 of the most able surgeons of England, France, Russia and Italy, in order to show them new methods for the treatment of dental and other frontal portions of the heads of soldiers wounded in battle.

Just prior to the outbreak of the war, Dr. W. Curtis Brigham, one of the foremost osteopaths in North America, returned from Europe, where he had completed a special course under the famous German physician, Dr. Wilhelm Erich and Pappenheim of Berlin. He also post-graduates at McGill University in Toronto, with the Mayo brothers in Rochester, Minn., and at the New York Postgraduate Hospital. In the work of the foundation, he will specialize in research bearing on obstetrical surgery and gynecology.

ARE PROMINENT.

All of these men have been prominent in the medical profession in their country. Dr. Brigham is the retiring president of the California State Osteopathic Association. He has been connected with the teaching staff of the Los Angeles College of Osteopathic Physicians and Surgeons. They will have a number of prominent doctors associated with them in the original staff of the foundation.

Dr. H. E. Beckwith, who has just returned from the X-ray section of the Army Medical Association meeting held in Detroit during June, will be at the head of the roentgenological department. Dr. Carl H. Phinney has been doing special research work along the line of bone surgery and fractures. He is at present at Tulane University at New Orleans after completing a course in specialities at Cornell and New York hospitals. Dr. E. B. Jones has just returned from Chicago, where he studied under the famous Dr. F. Schmid, expert in diseases of the skin.

To the state will be gradually added other men of national repute. A distinguished bacteriologist who was one of the first to join the staff. His name is not yet known because of his inability to set a definite time for joining the foundation work.

According to the physicians at the head of the plan, considerable original research has already been done and this will be rapidly enlarged and directed toward new methods of diagnosis of the least known disorders. While infant mortality has been decreased to a great extent during the past ten years, the mortality rate because of nervous trouble in persons in middle life, has increased alarmingly, it is pointed out.

AIM AT PREVENTION.

The prevention and the cure of these, particularly by original methods, will be the chief aim to be striven for. Periodic health examinations in the schools, factories and places of public business will be advocated in order to assist in the early detection of disease and their prevention from spreading.

Dr. Merrill yesterday admitted the development of the foundation, but declined to say anything of the plans for an entire year, awaiting the time when the building of the organization would be well under way.

"We can expect to accomplish off-hand as much as the Rockefeller Foundation, with its immense endowment of \$100,000,000 and its unlimited resources," he said. "But we can accomplish a great deal of good along the lines of advancing preventative medicine and this is our present motive."

explanation of the "growing feeling of discontent among taxpayers."

PURCHASE OF PIPE.

We did not suggest any particular meeting of the "architects of pipe," meeting the insistent demands of our people for water services until the European war closes and freight rates are moderated. We called attention to the fact that your estimate for the purchase of stock pipe was very largely in excess of the amount expended for this purpose, for any part of the past five years, and raised the question "whether this is not an exceedingly unfavorable time for placing large orders for stock pipe, and whether it may not be to the material advantage of the city to postpone, so far as practicable, the placing of large orders."

Practically the same statement that we had presented a communication not pertaining to be founded on facts, figures, or any real inquiry or information into the affairs of the department of public service, permit us to say that we have examined and carefully analyzed all of the reports of the water department and any account given by the corporation for the purchase of stock pipe was, shall of course, be more than twice the cost of the pipe.

One hundred and six major operations were performed.

The report describes the improvements made in the hospital during the year. At present it is one of the most modern on the Pacific Coast. Transformation from its former unsatisfactory condition involved an expenditure of \$4000.

The present staff is: Dr. E. H. Wiley, head surgeon; Dr. A. W. Hiller, Roy H. Johnson, Louis M. Kane and Paul Opp, assistant surgeons; Dra. T. M. Hart and Wallace Dodge, relief surgeons; Charles Whitehead, steward, and nurses, Almena Parker, Fred R. Mason, Ceylon Robbins, Paul McWilliams, Mary A. Benedict, Hazel M. Archibald and Helen Harrison.

WARIKE.
BATTLE SPECTACLE FOR DEFENSE FUND.

SIEGE OF LOS ANGELES TO BE SIMULATED HERE.

Park will be setting for Production that will show Working of Modern Battle Engines. Proceeds go to Equipment for Home Guards.

AS SAFETY MEASURE.

Company Wants to Reduce the Car Clearance Margin.

MAKES DIRECT APPEAL TO MEN.

CAREFUL CONSIDERATION OF STRIKE MATTER ASKED.

Southern Pacific Posts Notices Stating the Roads Attitude on the Eight-hour Day and Other Issues—Begins Consideration of the Public.

Over the signature of President William Sprague, the Southern Pacific yesterday posted notices on the roads of the eight-hour day and other issues—begins consideration of the public.

Tentative details were announced yesterday, but so far the exact date of the strike has not been decided.

One of the city's largest posts will be utilized for the mammoth production, but no definite decision on this has not yet been reached by the committee.

"The Siege of Los Angeles" will show exactly what might happen to a metropolis of this size unprepared for invasion by a foreign foe. An entire section of the city will be constructed, only to be later destroyed by aeroplans dropping bombs down on it, siege guns, howitzers over its walls and hand grenades setting fire to it. Armored motor cars, rapid-fire guns, several regiments of infantry, artillery and armor, dirigible, balloons, dirigible balloon, and monster 75-centimeter siege guns will all figure in the spectacle.

A grand finale will be the playing of the "Star Spangled Banner" by a band of 1000 pieces.

A part of the programme includes a prize contest for Southern California bands, with a second and third cash prizes, as well as medals offered for the most creditable condition of the nation's marching bands.

"The company is not responsible for the present agitation and the strike will be delayed if the demands of pay and working conditions, unless forced to do so in the adjustments of demands originated by representatives in engine train and switching service."

"No just reason for thus interrupting the service exists. The railroads have agreed to make every demand raised by the demands which have been presented."

"The representatives of the men, however, rejected this offer and have issued strike ballots earnestly hoping:

"That the men will seriously consider their positions, their pensions, their seniority, compensation privileges and the welfare of their families."

"That the men receiving ballots will vote against a strike ballot."

"That the management will give its influence to that end."

"The management favors the settlement by arbitration of all the questions in dispute."

"The committee will preserve to each one of you, unbroken power and power to the public, uninterrupted service, and to the public continuation of earnings with the same it can perform its public duties."

Belated.

HONOR DEAD MASTER.

Musician to Provide Funeral for Composer Who Shot Himself to End Grief at the Failure of His Crowning Work, a Grand Opera.

Maestro Enrico Botta, the dead son of the dead man who fatally shot himself Saturday in his garret room, because of his great effort, a grand master of the violin, is to be buried in the Button morgue, where the body was taken, and gave him the information a fitting funeral, whereas the dead musician would be provided.

Many musicians who respected the eccentric old master for his ability to play the violin, came to the Button morgue, where the body was taken, and gave him the information a fitting funeral, whereas the dead musician would be provided.

Many musicians who respected the eccentric old master for his ability to play the violin, came to the Button morgue, where the body was taken, and gave him the information a fitting funeral, whereas the dead musician would be provided.

Many musicians who respected the eccentric old master for his ability to play the violin, came to the Button morgue, where the body was taken, and gave him the information a fitting funeral, whereas the dead musician would be provided.

The funeral will be conducted in the Button chapel tomorrow morning at 10 o'clock. The body will be taken to Calvary Cemetery and the conductor did not give him and his wife time to descend the stairs for burial.

THROWN FROM CAR.

Woman Dragged Forty Feet and Seriously Injured.

Mrs. Rosina Goldberg, No. 624 Sunset boulevard, was thrown from a Pacific Electric car at the Sunset Boulevard and Franklin intersection last night, and dragged forty feet. She was seriously injured. Her husband, Louis Goldberg, who attempted to rescue her, was uninjured. Mr. Goldberg states that last night that the car was crowded and the conductor did not give him and his wife time to descend the stairs for burial.

HUNDREDS OF LIVES SAVED.

Frustrated Suicide Attempts Feature of the Receiving Hospital Report.

Attempts of 243 persons to take their lives were frustrated at the Receiving Hospital last year, as explained in the annual report issued yesterday by Police Surgeon Wiley. The total of cases for the year shows a marked increase over the preceding year, the comparison being 12,930 to 10,511.

Of the total, 2106 were firemen or policemen, while in 1915 but 1105 policemen and firemen were in the hospital.

Prisoners in the City Jail demanded a vast amount of attention, 13,000 treatments having been given.

Of all patients at the hospital, 1817 were injured in automobile accidents.

One hundred and six major operations were performed.

The report describes the improvements made in the hospital during the year. At present it is one of the most modern on the Pacific Coast.

In the part that left yesterday there are approximately forty men who will take the special course in the Army and Officers' Cadet Corps instruction, arranged for the benefit of men who because of advanced age might be unable, in time of war, to serve in the armed forces.

With the exception of the 243 persons who left yesterday, there are approximately forty men who will be serving in the American Legion and Guard service.

Other localities had contributed recently in the same proportion as the American Legion, the number of men at the various training camps in the United States would exceed 125,000—up to 128,000 troops, or replacement force for the American troops in Mexico and guarding the border.

With the exception of a few individuals who were unable to get away yesterday morning, and who left last night on the "Lark," practically every recruit from Southern California has reported to the various training camps in the United States.

After a period of forty-eight hours in which his mind was a complete blank, William Minnick, night fireman at the Hayward Hotel, who "forgot" his identity amid the pleasures of Venice Saturday, last evening remembered. He was a victim of amnesia, that peculiar mental disturbance when memory of things becomes confused.

Other localities had contributed recently in the same proportion as the American Legion, the number of men at the various training camps in the United States would exceed 125,000—up to 128,000 troops, or replacement force for the American troops in Mexico and guarding the border.

At the County Hospital last evening Deputy Sheriff Connelly, in charge of the psychopathic ward, was missing. When he was last seen he was on duty at the detachment Saturday morning. The trip of the squadron to the training camp in the mountains of Southern California, which took place Saturday, was not known.

At the Hospital last evening he was reported as missing. Then in a conversation with the "Venice Mystery Man," as he had been termed, he was again mentioned.

He was reported as missing by his wife, Mrs. Minnie Minnick, who said he had been missing since Saturday morning.

FOR PRESIDENT
Charles Evans Hughes of New York
FOR VICE-PRESIDENT
Charles Warren Fairbanks of Indiana

DE TO FOREIGN MIXTURE.
Fourteen murders in one year and
41,732 arrests in twelve months—Los Angeles
would not appear to be so "chemically pure," after all.

A FAMOUS TRINITY.
New York is a history-making city. One of the most important American events of the year 1916 is to occur there this coming fall. Hughes, Taft and Roosevelt will meet on the same platform and speak therefrom. A happy augury for Republican success.

TOUGH ON BACHELORS.
A woman whose husband shot her admiringly remarked that the admirer was very kind to her. He got his reward. But think what it means to the poor bachelor in general! If he is kind to an unmarried woman, he is in danger of being asked his intentions, and if to a married woman he runs the risk of being shot.

A WORLD WONDER.
Yosemite has been described as the scenic climax of the American tour. It is one of the wonders of the United States. Thousands of Los Angeles people have never come to the famous mountain gorge which lies in the heart of the high Sierras. A great treat is in store for those who journey to the valley of a grandeur indescribable.

PAYS TO BEHABIE.
Chief Stryve has made public the disconcerting fact that his men last year arrested one out of every dozen people in Los Angeles who bring the law right up to a fellow's front door; and as most of the arrests were for drunkenness, it means that it is wise to literally walk a chalkline—or whatever you choose to call the straight and narrow path. As a matter of fact, honesty is not the only best policy. Sobriety is one, also.

CHESTER ROWELL? NOT!
The Times cannot quite believe that the infamy of the proposed appointment of Chester Rowell of Fresno as "Progressive member of the National Republican Campaign Committee" will be carried out. Why not appoint Tom Taggart or William J. Bryan? That would be just as reasonable, and they are clever men. Chester Rowell is one of the gang of political larcenists that stole the State from the Republican party and kept Taft electors off the ballot in 1912. The proposition to reward him for his treachery by making him a Republican party manager is insupportable. In the name of every loyal Republican in California The Times protests against this proposed appointment.

A FATAL FACILITY.
A generally more emphatic statement the more decisive the action that follows it. This is the way with most men and women. But not with President Wilson. The President has a fatal facility for words, an equally fatal ineptitude for deeds. He employs language not exactly to conceal thought, but rather to escape action.

It is all right to think first and act afterward, but Mr. Wilson never gets beyond the thinking stage—or if he does, his fatal facility for words charms him from his expressed purpose. The general verdict on the Wilson official career is summed up in the old Latin phrase, "Vox et pretenses nihil." A good voice, a worthy voice, often an eloquent voice; but still never answering the question, "What next?"

USE FOR CAVALRY.
Military experts, watching the progress of modern warfare, had almost concluded that cavalry as an effective branch of the service had become a thing of the past. But in view of the colossal operations of European armies, it is impossible to arrive at hasty conclusions. Fresh latest accounts of the war in Europe make it clear that the cavalry arm, though it may be less applicable to the Russian armies in so short a space of time is more attributable to the Cossack cavalry. Once the deadlock of trench warfare is broken by artillery, the old cavalry charge has not lost its former effectiveness. Probably, though the additions are numerous to the requirements of a modern military campaign, very few of the older devices can yet be dispensed with, while many, almost prehistoric, are being revived.

A FEW FACTS.
A Pulitzer's Review, a new monthly devoted to Americanism, in its first number presents the following information relative to the financial aspect of Mr. Wilson's administration.

When President Wilson was inaugurated the balance in the Treasury was \$150,823,069. Then came the Underwood act.

In three years sugar was produced for \$40,000,000 part of the time and \$20,000,000 the rest of the time; the income tax averaged \$40,000,000 a year; the peace-time war tax, imposed as a desperate remedy by the Democrats, brought more than \$50,000,000 a year.

At the end of that time the treasury balance (McAdoo's method of figuring) was \$20,000,000; shrinkage, \$130,823,069.

According to the old system of keeping books, even the \$20,000,000 has disappeared, and there is a deficit of \$50,000,000.

Think it over.

THE PATRIOTIC SOLICITOR—HUH!
That the National Guard should agree to pay 27 per cent commission to any solicitor for collecting funds for the equipment of the State army at Exposition Park—voluntary subscriptions from patriotic citizens—is surely a reflection on our people's perspectives, and an ignoble perversion of our generosity.

The man Kennard agreed to raise \$150,000 by voluntary donation from business men at a commission of 27 per cent, which would net him over \$30,000 on the deal—\$20,000 of the otherwise-contributed public money into one pocket for placing the State's need before the donors! The thing is almost incredible and a glaring aggravation of the system which allows the payment of 10 cents per name for those soliciting signatures on petitions of recall.

And when we are told that such is the custom in every State in the Union, that the National Guard is employing this expensive and outrageous method of raising funds all over the country, the thing reaches the dimensions of a national scandal.

We are all ready to do our share for the sake of a decently-prepared country, but we are not prepared to pay any suave adventurer at the rate of \$5000 a month to collect it from us—for it is understood that he agreed to raise the amount in six months.

Surely some more reasonable and decent method can be found for soliciting these funds. The appointment of a government official at a stated salary for the purpose, or the utilization of the services of the national banks in each city, or a member of the government appointed to publish the needs of each State, or even a direct national assessment, have more to recommend them than this dubious system of preposterous commission to a private individual.

Mr. Kennard is apparently well within his legal right, and is, perhaps, to be envied the acquisition of an advantageous contract, but the conditions under which such a state of affairs could be possible cannot fail to arouse our ire and inspire a thoroughgoing investigation.

THE RUSSO-JAPANESE TREATY.
On the face of it the Russo-Japanese treaty is respectable and sincere. It marks a new epoch in the amazing rise of Japan to world power. She now has alliances with two of the greatest and most powerful nations, England and Russia—all and making for wealth, influence, power and progress. The Orient no longer stands aloof from the world; it is in it, with it, for good or ill, yellow peril or no yellow peril.

One paragraph in Premier Okuma's statement makes particular impression: "The Japanese does not want to take the full burden of Far Eastern peace alone is that Japan is afraid of being misunderstood by the other powers, especially China." Japan welcomes any power's activity to maintain Eastern peace and commercial development.

It states the exact antithesis of the Monroe doctrine of this continent, which expressly warns the powers against interference and intervention and the further acquisition of territory under peril of conflict with the United States, which imposes its right to settle the affairs of this continent alone.

The United States does not wish to take the full burden of peace alone in Mexico—that brings the full right up to a fellow's front door; and as most of the arrests were for drunkenness, it means that it is wise to literally walk a chalkline—or whatever you choose to call the straight and narrow path. As a matter of fact, honesty is not the only best policy. Sobriety is one, also.

JAPAN twice invited American participation, says Okuma, "when the Americans advised Yuan to postpone the monarchy." And from that speech it is to be presumed America declined.

The United States can and does stand alone, but recent events, both in Europe and the Far East, have shown that our exclusiveness, our penchant for avoiding "entangling alliances," is not entirely approved and accepted as a sine qua non by the rest of the world.

Japan twice invited American participation," says Okuma, "when the Americans advised Yuan to postpone the monarchy." And from that speech it is to be presumed America declined.

The man who is born and grows to manhood on American soil becomes an American citizen by virtue of his birth. He sees nothing in the political, industrial or social conditions of other nations to induce him to become a citizen or a subject of another land, and, with the exception of here and there a man such as Hiram Maxim or Waldorf Astor, seeking fortune or social recognition, there are no instances of American citizens abandoning their citizenship.

It is different with the foreign-born man, especially the workingman. His environments in his birthplace were restrictive. He was imprisoned between walls of caste too high to climb over, too deeply imbedded to dig under and too thick to break through. Even in free England there is but small chance for a man to rise out of the condition of life in which he was born. The grandson sells fish in the same market stall which in a former century was presided over by his grandfather, and the footman is still his son.

Japan's modus operandi seems to be rich partnerships and strong friends. She will run an enterprise herself if she can, but failing that she is content with a powerful partnership—with an eye to a controlling interest.

It is obvious that at present the United States stands alone in its policy of exclusiveness. It is a dignified policy, a splendid policy, so long as we are strong. But our Monroe doctrine is a challenge to the world and calls for an essential assurance of power. We, of all nations, must be strong. A pot-bellied, pompous Uncle Sam, playing with a toy army and navy and dabbling in sentimental pacifism, does not engender respectful consideration. There is no gain-saying but that Indiana has a cinch on it now," returned the old woman.

Prepare for peace as well as war and keep the pay envelope full!

Swindled.
[Kansas City Star:] "Mercy!" ejaculated young Mrs. Kidder, in the midst of her reading. "Here is an account of a woman who sold her baby for 50 cents!"

"Oh, well," returned her bachelor brother, who had at sundry times cared for the children while his sister went shopping, "all kinds of swindles are being worked nowadays."

With luscious Southern California strawberries here in endless profusion, it looks very much as if a lot of other things would be compelled to wait.

The Hint Obvious.

Gen. Carranza: "I so deeply regret your visit is at an end. Permit me to hand the senior his hat!"

Montreal Daily Star.

enough promising to be a true and loyal citizen of his adopted country.

Why should any man who has taken this oath call himself a German-American or an Irish-American or a Russian-American or an Italian-American? and how can he give aid or comfort to any foreign power in any controversy with the United States?

Happily it is said that instances of such disloyalty to their adopted country or of violation of their oaths of allegiance to the United States have been very few among our naturalized citizens. If they have not been neutral in feeling as between the European combatants they have been neutral in action and to a large extent neutral in expression.

NOURCAGING SHIPPING.

British Columbia has joined the list of foreign nations, colonies and provinces seeking to promote by financial aid the growth of their merchant marine. The provincial government has introduced in the Legislature a bill under the terms of which the province will make loans to ship-builders to the amount of 55 per cent. of the value of each vessel built within the province for employment in the trade between British Columbia and foreign ports, provided that no loans shall be made to any one builder for a greater number than twenty ships. Each ship must be built in accordance with the plans and specifications prescribed by a board of experts appointed by the provincial authorities, and construction must be done under the supervision of the board. Payments will be made in ten annual installments, the initial sum to be paid the first year after peace is declared. Each installment will be so computed as to bring the net earnings of the ship up to 15 per cent. of its actual cost, but the amount paid for any one year must not exceed \$5 per ton dead weight carried.

Payments will continue only so long as the vessel shall continue to be engaged in trade between the ports of British Columbia and of foreign countries or other colonies. No subsidy will be paid to middlemen or promoters, nor will subsidies be made subject to assignment or attachment. The loans will constitute a first charge upon the ship, Aid for provincial shipping to the ag-

reement.

Already companies are preparing to take advantage of the act. A new corporation will be formed at Victoria to build one or more vessels for the offshore lumber trade, the first to be a three-masted barkentine, the second to be a four-masted barkentine.

It is the opinion of the workingmen that the new corporation will be successful.

PEN POINTS
BY THE STAFF.

"What is Americanism?" We have the answer in November.

A great many motor men better than they sound. The auto horn is working.

In addition to the Mexican there are also the Mexican and ravines to worry about.

A more man won the prize for the woman suffrage. Isn't that rubbing it in a bit?

Some men show their respect for the national song, "The Star Spangled Banner," by never trying it.

It is understood that the dog about every dog having one applies to the one we want.

There are at least two kinds of men. One is in compelling us to do things that one doesn't want to.

The Verdin strategists will be called meeting at the Dutton around the corner this weekend.

It takes all kinds of people make a big town, and Los Angeles has them all. It is a sign of cosmopolitanism.

It is quite evident that people on the way, but whether it is going or going nobody seems to ascertain.

Courtesy ought to be shown both sides of the counter if the courteous buyer is a rare thing.

There are some things we will never know—why more than men go to church; the Mary Garden, etc., etc.

There is this to be said of taking photographs along automobile rides—it gets the graphs out into the open air.

Whenever the news is good Japan they assimilate good Count Okuma. But it is the end man who lives to a greater age.

It isn't absolutely necessary a man to wear bow-tied when avoid being called a "pussy." The emblem will be given at the hall of Columbus Hall, Raymond and Colorado street, at 7 o'clock.

CLERK ARRESTED.

Louis Montgomery, clerk in a Raymond avenue stock office is in the City Jail with embossed. He was in Los Angeles by W. W. Freeman.

He is alleged he embezzled \$500 Anna Everett. She engaged him to invest in certain stock and said he share but in reality got \$1,150 per share and nothing. He probably will be before Police Justice today.

HOW MANSION,

Bill Cravens, of Orange Grove and Madeline drive has let his home for \$10,000 a month to the blue-blooded millionaires now on the market of his place.

R. G. Elliott, who appears as plaintiff in the complicated case, was appointed by a Kentucky court trustee for Mrs. Reid and as such trustee will collect the balance of Mrs. Pruitt's sum stated in the present action. The claim was rejected by Mr. Patterson. Mrs. Reid, according to her statement, has her interest in the Pruitt property, and it is for accounting of this estate that action is brought.

Mrs. Elliott and her daughter, Miss Pruitt, the actress, are members of the Orange Grove property for \$12,000, interest in brass foundry worth \$50,000, and mining stocks and cash in bank, \$15,000.

GOES LOCO IN HER OLD AGE.

BEAUMONT, July 9.—Old Beta, the family driving mare owned by J. B. Lee, living three miles north of Beaumont, has shattered a life-long reputation for trustiness and established in its place a unique record among the tales told of frightened horses.

Breaking away from in front of her home the mare ran at full speed to the city dump in a light wagon, dashed through the business part of town, narrowly missing traffic. After continuing two miles south she counter-marched and returned to the rearward pastures through the business district and this time freeing herself from the wagon.

City Marshal Samson stopped her by roping her with a lariat on the Gray ranch west of town where she had run eight miles. She immediately attacked her captor and refused to let him get near her. What this means is to be rather indefinite.

Mr. E. R. Stone, of No. 100, Calle Street, have been as Adele's mother to the national convention which took place at St. Paul, July 19 to 22.

YACHT RUNS INTO WHARF AT HARBOR.

LOS ANGELES HARBOR, July 9.—A party of fifteen of Allen Hancock caused a fine cutting today because of an accident that resulted in several hundred dollars' damage to his palatial cruiser, Valero. The cruiser was coming into the Fifth Street wharf when it struck the pier.

Fortunately the prow went between two piles and under the third and did not stop when it jammed between the piles.

The cause of the animal's flight was a small piece of paper blown by the wind.

PLANS TO PUT ON NEW DRESS.

SLOOPE VITE IS RACE WINNER.

[OFFICIAL CORRESPONDENCE]

LOS ANGELES HARBOR, July 9.—In a fast race off the harbor here this afternoon, the sloop Vite, owned and sailed by Commodore B. P. Weston of the South Coast Yacht Club, won the Vice-Commodore V. A. Goodrich cup by beating the sloop Co-jumbin by one minute, four seconds, corrected time.

The race was a pretty one from start to finish, and while A. G. Sepulveda's racer, the Columbia, was slightly beaten by her owner consoled himself with the second place cup, a silver trophy offered by the club.

The four contestants got away in close start at 10 o'clock, Chairman J. J. Goldsmith of the Regatta Committee pulling the gun from the power cruiser Canadensis. Capt. Ingraham, which was loaded with yachting fans, the racing committee and the yachting reporters.

Capt. H. N. Logan (the Alert fame) led across the line in command of Columbine and the place dotted with gay-colored flowers, artistic feature of this waiting room will be a parked driveway extending from Green street the entrance so that tourists may get out on the west which will be the west. Progress of the Southwest's Great Mining Revival--Latest Developments Chronicle

BUILDING WAY FOR DIVIDENDS.

Tom Reed's Mill Addition may Mean Resumption.

Rumor of New Strike in Black Range Section.

Many Companies Approaching Area of Richness.

(SPECIAL CORRESPONDENCE)

OATMAN (Ariz.) July 8.—An event that it is generally believed, will mean the early resumption of dividends by the Tom Reed Gold Mining Company was the placing in operation this week by that company of ten additional stamps. The Tom Reed is now therefore working at full capacity with twenty stamps dropping. It was early in the week that the extra units were made ready.

This is the first resumption of full operations since last October. The Tom Reed is pushing development work on a very extensive scale. They have just completed the great frame on second claims completely surrounded by the United Eastern and are about to install machinery to explore the ground.

The financial statement of the Tom Reed shows there is nearly \$250,000 in the treasury. The company has a vast stock of ore ready.

On the 1400-level they have opened up a good ore shoot. They are securing good ore from the Black Eagle, and it is said that they have secured a shaft about the Grey Eagle shaft which adjoins the Big Jim. That the company will be shipping more than \$100,000 worth each month is generally expected.

Another notable event of the week is the report that the Oatman Syndicate, the Tom Reed mining property located in the Black Range district, has struck the ledge on the 400-foot level. This company is operating as a close corporation and little or no information is obtainable.

The Oatman Syndicate was formerly known as the Phoenix group and was taken over by Mr. Channing following personal inspection by that mining expert.

United Eastern has about completed its new holding frame, the highest in the district. It can be seen for miles around. Progress on the building of the mill is rapid. The new plant will be just across the site of the old. The head of the new holding plant and is located in the position looking to the most convenient and economical handling of the ore from the mine.

EXCAVATION COMPLETE.

All the heavy work for the mill is completed. Several benches have already been erected and some of the parts of machinery have arrived. The new mill will be more or less complete and of the pebble type.

Oatman is now in the stage where a number of companies are at work under the riches that are believed to exist. The physical conditions of the camp are rapidly improving. Every capital continues to come this way and optimism is everywhere manifest.

The inactivity of a number of Oatman securities at this time is due to the fact that some of the companies have suspended operations until they can straighten out their financial condition.

It is a noteworthy fact that quite a number of the companies operating here are working with all possible speed in the endeavor to open ore.

Figures show that the operating companies in this camp are paying out close to \$300,000 a month in wages to miners and their families. The miners paid the superintendents and mining engineers.

MUST REACH DEPTH.

Oatman is a deep mining camp and it takes considerable development work to bring the ore to market. The camp is in its infancy. Many of the companies are getting near the ore zones and it is reasonable to believe that a number of the more important properties will shortly hit the ore and that the progress of the district will be greater even than before.

I. C. Clark, of Los Angeles, a prominent capitalist of that city, visited the camp during the last week accompanied by his wife and son, and Will Smith of Calumet, Arizona, president of the Oatman Bell, and is interested in a number of mining companies in other sections of the country.

The Tom Reed Gold Mining Company property was highly pleased with the development work going on there. The company has been instrumental in the success of the main working shaft. All machinery has been installed and work on an extensive basis is being carried on. The company is doing well, but the sales are a very notable example of such territory, having not been sufficiently prospected.

BENEFITS LOW GRADE.

Flotation Plants Soon Ready in Goldfield District.

(SPECIAL CORRESPONDENCE)

GOLDFIELD (Nev.) June 26.—Before the expiration of another week two oil flotation plants of large capacity will be operating in the Goldfield district and means will be afforded for treating the low-grade copper-gold ore which has been practically worthless heretofore.

In addition to one of this character and large quantities of low-grade dump ore, these plants will treat vast amounts of ore of considerably lower grade which would yield a profit if shipped to smelters, but which has been left standing in the mine to await a better market.

The Oatman Union has received a new forty-horse-power hoist which has already been installed. The company is now awaiting a sixty-ton hoist which will be required to haul the shafts, but work has been suspended pending machinery installation.

HERE AND THERE.

The shaft of the Adams is down 140 feet and shims are being added and making rapid headway. Nick D'Arcy of Los Angeles and associates are operating the property.

Crosby and Adams is the foot level of the Blue Bird is well under way. At the present writing they are working in 140 feet.

The mines are very favorable.

The mine has cut through thirty-two feet of vein matter on the 800-foot level and has obtained fair results.

The Chicago Syndicate has a shaft

down to 112 feet. Two shifts are at work under the direction of J. C. McCollo.

A new hoist has arrived at the Pictures Rock mine and is being put in position. Sinking to the 500-foot level is to start soon.

Several stringers have been cut in the main vein. Calumet's new machinery has been installed and works splendidly.

Operations on the Gold Dust are going along rapidly, and company is pushing development on the 500-foot level and in fairly good ore.

Two shifts are at work on the Argos. They are working on both the 400 and 450-foot levels. Over 100 feet of development work has already been accomplished.

PHOENIX CONVENTION PLANS

Interesting Week is Planned for

(SPECIAL CORRESPONDENCE)

PHOENIX (Ariz.) June 16.—Elaborate preparations already are being made for the reception of the American Institute of Mining Engineers, which is to be in Arizona the larger part of the week of September 18-25.

After a brief visit to the Chinon mines and mill, in Southwestern New Mexico, the 19th will be spent in Douglas in an inspection of the Copper Queen mine.

The 20th will be devoted to exploration of the most interesting mines of Bisbee, with their remarkable geological features.

The night journey on the special train will land the scientists in Globe, where two days will be spent in the examination of the copper.

The 21st will be given to the study of the most interesting mines of Bisbee, with their remarkable geological features.

Potash Present.

MOJAVE, June 17.—Q: Will you please determine for me, what variety of mineral the sample of ore, that I am sending you under separate cover, belongs to? A: Siliceous mica, iron and manganese in the mass.

ROCHESTER.

RARE MINERALS, METALLURGY, CHEMISTRY.

In the Earth.

of the sample for test. The geode end of the specimen carried a yellow portion of crystal matter, but was rejected for proper analysis.

In short, the biotite was "too much" for the minute sample.

Platinum Absent.

LOS ANGELES, June 20.—Q: Ore sample from Gold Basin, Ariz. Does it contain platinum?

"SUBSCRIBER."

Mica-like.

LOS ANGELES, June 20.—Q: I am not able to classify this sample. Will you kindly inform me through your "In the Earth" what it is?

"PROSPECTOR."

A: Siliceous mica, copper, iron and manganese in the mass.

Mica Schist.

BURBANK, June 21.—Q: Please send the sample for what there is in it.

E: A: Aluminum silicate, quartz and lime-magnesia (carbonates) present.

Trachyte with Topaz.

PARADISE, June 21.—Q: I am curious to know what the rock is, and what is the crystal?

L:

Crystals.

ALANFAIR, June 21.—Q: Under separate cover I am sending you a sample of mineral the sample of ore, that I am sending you under separate cover, belongs to? A: No. 2 and 3 are of any value.

F:

A: No. 1 is quartzitic; tourmaline present. For tungsten, test No. 2 and 3 represent samples that are sought for by mineral collectors.

Gold Present.

HOLLYWOOD, June 22.—Q: Be kind enough to analyze the sample and give results in column of The Times.

C:

A: The sample is chiefly carbonate with aluminum silicate. In the mass of the specimen, when broken, yellowish jaspal appears.

Tungsten absent.

Iron absent.

Gold Present.

FRESNO, June 22.—Q: I am sending you by parcels post two samples of ore, and I respectfully request that you will classify the rock and also the yellowish substance in the rock. Some tell me that the yellow is gold.

The samples came from a narrow seam of the mine which has been developed for a number of years.

C: The sample is of talc, and mica, with a band of blackish-red matter in the mass, also Martite, and wolframite. We owe you an apology for delay in giving you results of testing.

Doubtful Values.

NIPTON, June 22.—Q: Under separate cover by parcels post, are sending samples. Make tests as per test marks.

A: We comply with your request, and make tests only as called for by you.

The sample is of talc, and mica, with a band of blackish-red matter in the mass, also Martite, and wolframite. We owe you an apology for delay in giving you results of testing.

Chiefly Pegmatite.

LOS ANGELES, June 22.—Q: This sample, from a locality in Arizona. Please state what it is.

UPSWING MARKS
STOCK PRICES.of Reckoning on the
Holiday Trading.Business Conditions
Without Change.Commercial Strife to Follow
in Wake of War.BY W. S. COUSINS,
"THE AMERICAN BANKER."
SPECIAL CORRESPONDENT.NEW YORK, July 5.—Holiday
trading was suspended at the beginning of
the week, and while the volume of
business was correspondingly small,
the market was not adversely affected
by many strikes and the threatened
and actual stoppage of business, and
prices are from \$5 to \$7 per cent.
higher, or 2 to 4 per cent. above
those in June, 1915.Prices for steel bars and beams
have increased 100 to 120 per cent.
over those of a year ago, and conditions
are not adversely affected by
any major strike, the threatened
and actual stoppage of business, and
the total area output from the Lake Su-
perior region may possibly reach
\$600,000,000 gross tons.SILVER OUTPUT SHRINKS,
WITH GREATLY REDUCED MADE BY WAR
AND LABOR CONFLICT.Commenting on the large increase
in demand for silver, owner and
adviser of the London Statute, Mr.
Hollings and Sons reports that it is
evident at present that the demand
is coincident with a decreased
output. The reasons for this are
not clear, as conditions in
Mexico, in which silver is chiefly produced,
have been kept in a state of
inactivity. In the United States the
metal is maintained as a by-product. Produc-
tion in the United States was ap-
proximately 2,900,000 ounces greater
in 1915 than in 1914.Canada, the United States and
Australia normally produce nearly
one per cent. of the world's silver
allowing for the consumption in
Mexico, in which the United States
estimates world's production of silver
in 1915, contrasted with 1914
was about (ounces):UNITED STATES..... 74,901,075
Canada..... 7,514,875
Australia..... 12,275
Mexico..... 10,300,000
Other countries..... 17,740,000
Total..... 90,425,000

RIALTO.

Clever.
NEAT FILM COMEDY.
"FLIRTING WITH FATE" BRINGS WHIMSICAL APPEAL.

By Grace Kingsley.
Head and shoulders above the ordinary screen comedy is "Flirting with Fate," which Douglas Fairbanks is starred at the Palace this week. Its subtleties alone are worth the price of admission, and its plot is of the whimsically humorous sort which will appeal to the film fan with ideals above slick stickups without seeing the picture. Douglas Fairbanks does quite the best bit of work I have seen him accomplish.

Charlie Murray is as funny as it is possible to be in "The Marble Heart," but this film falls far short of Bennett's best.

MILLER'S.
The crop of Mary Pickford's No. 2 seems to be a rich one. June Caprice, the new Fox star, appears at the Egyptian in "The Captain of the Mountains," the latest. Miss Caprice is a very pretty girl, and she greatly resembles Miss Pickford. She is possibly of a screen ingenue to act in any other manner than that made famous by little Mary. It would be wise for her to do so, with Miss Caprice's talent and beauty can ill afford to copy another.

"Caprice of the Mountains" is a fairy tale of life, charming and de-

Trixie Friganza,
The effervescent comedy queen of "Canary Cottage," now in its closing week at the Mason.

It is well cast throughout, Harry Hilliard an ideal hero. There are some extremely beautiful settings.

Altogether the picture is sure to please the vast majority of picture fans.

GARRICK. It would appear that Charlie Chaplin is going in for "straight" comedy, judging from his latest characterization in "The Vagabond." The Garrick this week has the same fine walk as still there, and the other typical bits of Chaplin "business" but a new element, which has been suggested in all the later Chaplin films, is the discernible, viz., the playing of a character for sympathy. I do not believe this is a good thing. While Chaplin keeps the appealing strain there, and has had a decided effect on his audiences, all was well, but the mixing of farce and drama would seem to be bad art. However, the troupe belongs to Charlie, and he can do what he wants with it, as was indicated yesterday at the first showing of the film.

Universal's Biggest. The Chaplins are soon to be viewed for the first time in the world's history. "Twenty Thousand Leagues Under the Sea," a picturization of Jules Verne's famous submarine novel, will be made by the United Artists, who will introduce the aquatic actors. The film promises to be one of the most spectacular and thrilling productions ever made, and certainly the submarine features are the most unique.

Stuart Paton, one of U.S.A.'s most capable directors, has been working for nearly a year on the big picture. The undersea scenes were taken along the ocean bed, in the vicinity of the Bahama Islands, where the water is unusually clear, making it possible to film thrilling episodes of great beauty.

Paton, following completion of the underwater scenes, invented and operated a cinematographic submarine vessel, from which he could photograph the dramatic acts of players garbed as divers. The scenes, which were planned for production at the Greek Theater, Berkeley, the 29th inst. The spectacle includes scenes visualizing the life of the Nile and the Ganges rivers, with visions of the River Styx.

After the spectacle will be repeated at the San Diego exposition grounds, August 12 at Exposition Park in this city, for the benefit of the Seventh Regiment Armory, and August 19 at the Greek Theater at Montecito, Santa Barbara.

Charity Note. Nat Willis, who comes to the Orpheum today, wears a new make-up. It's the sort of somewhat mussed-up makeup he wears.

When asked what he had done with his ancient patched-up trap disguise, Willis replied he had given it to the poor!

Silent Hoyt Revival. "A Tin Soldier," Charles Hoyt's famous comedy, is to be revived. Hoyt's comedies were noted for their noise, but this is to be a noiseless revival. The Economy Film Company is making it.

Tully as Producer. Richard Walton Tully, author of "The Third Man Passione," and other successful plays, has gone into the producing business in New York, under the title of Richard Walton.

So far the picture is said to have cost more than \$100,000.

Civilization Wins. A telegram received from Thomas H. Ince last gives the information

LETTERS TO "THE TIMES."

Wasting People's Money.

LOS ANGELES, July 8.—[To the Editor of the Times:] The people are asking for a reduction in taxes. "Captain of the Mountains," is the latest. Miss Caprice is a very pretty girl, and she greatly resembles Miss Pickford. She is possibly of a screen ingenue to act in any other manner than that made famous by little Mary. It would be wise for her to do so, with Miss Caprice's talent and beauty can ill afford to copy another.

"Caprice of the Mountains" is a fairy tale of life, charming and de-

licious regiments alone. How long it would take to make up the deficiency for volunteer troops, if they were called in any great number, they are unable to estimate.

IN AUTO ACCIDENT.

Four are Injured, Three Seriously, when Machines Collide.

A. E. Wright, No. 244 West

Eighty-fourth street, his mother, A.

F. Wright, and Otto, were

seriously injured, and Courtney

Stocum, No. 5827 Crocker street,

sustained minor injuries, when the

automobile in which four were

riding, came in collision with another.

Valise is added to each letter which will be either published or withheld at the discretion of the editor.

Letters offered for publication should be in care of the Times, and are subject to editorial supervision.

Curse of the Mongoose.

[London Chronicle:] Jamaica is among the countries which have learned that man cannot with impunity interfere with the balance of nature. To keep down the rats,

which do so much mischief in the sugar cane fields, the mongoose was imported in 1872. He thrives, and did what was expected of him with a trysting ground.

He is a trysting ground.

According to those who saw the accident, Fitzgerald started

his car from Main street, on

the Wright machine, which was driven by the first-named of the brothers, ran up behind and struck it.

Get in Ahead.

Telephone 2-1000. Call 10 a.m. to the day or early Saturday.

tipped by the portentous ticks, which had previously kept within bounds of the creatures which the men had to stay.

PERSHING TO STAY FOR SOME TIME.

[By A. P. NIGHT WIRE]

COLUMBUS (N. M.) July 10.—Gen. J. J. Pershing's expedition will not come out of the city for a time at least was indicated by drivers of the many long-haul empty motor trucks which were here from the American West.

The drivers who will remain

supplied food that should be

brought up through the rains of the

city. The receiving hospital there

is the Red Cross Hospital.

The work is being pushed on

in earnest.

Washington has been

asked to supply

the supplies.

MEXICAN PLAN FOR CONGRESS.

[By A. P. NIGHT WIRE]

MEXICO CITY, July 8.—Imperial arrangements for the election of representatives of the United States and Mexico, to be held in some of the United States, were completed yesterday.

It is a trysting ground.

It is a trysting ground.
